Dear Parent/Guardian:

According to our records, during the school year 2020 your student had a special dietary need that required modification of the school menu. Federal regulations require the school to receive written instructions from an appropriate medical authority before the school can modify your student's meals. A recognized medical authority should complete one of the following forms to document your student's current special dietary needs. Annual updates to special diet instructions are recommended.

- Medical Statement for Student Requiring Special Meals Due to Disability: If the student has a disability that affects the diet, a licensed physician must complete this form.
- Medical Statement for Student Requiring Special Meals Due to Food Allergy or Intolerance: If the student has a food allergy or intolerance, a physician or other recognized medical authority must complete this form.

The medical authority must list on the form all foods that are to be eliminated from the diet and foods that may be substituted. The appropriate medical statement should be dated no earlier than July 1 of the current school year. To ensure your student's special dietary needs are met on the first day of school, return the completed medical statement by August 11th to shennie.quintanilla@gmail.com.

IMPORTANT: Please sign the appropriate medical statement. If the school staff needs additional information to clarify how to carry out the diet prescription, your signature is required for the physician or medical authority to share information with the school.

If you have questions or need assistance, please call me at 843-695-4920 ext. 60814.

Sincerely,

Shennie Quintanilla, MS, RD, LDN

Dear Physician or Medical Authority:

To allow the school food service department to comply with the USDA Child Nutrition Program regulations for meeting a student's special dietary needs, information must be provided using one of the enclosed forms. Please select the form to be completed based on the descriptions provided:

1. Medical Statement for Student with Disability Requiring Special Meals: A student with a disability is to be provided substitutions in foods only when supported by a statement signed by a physician licensed by the state. A "disabled person" means any person who has a physical or mental impairment which substantially limits one or more major life activities, has a record of such an impairment or is regarded as having such an impairment. The supporting statement must identify: a. The individual's disabling condition and an indication how the disability restricts the child's diet; b. The major life activity affected by the condition; c. The food or foods to be omitted from the child's diet and the food or choice of foods that must be substituted. d. Time frame of meal modification (if applicable).

OR

2. Medical Statement for Student with Food Allergy or Intolerance: A school will withhold and, at its discretion, may make substitutions for a student who is NOT disabled but is unable to consume food items because of food intolerances or allergies. A recognized medical authority, such as a physician, physician's assistant or nurse practitioner, must sign a supporting statement. The supporting statement must include: a. An indication that the medical or other special dietary need restricts the child's diet and b. The food or foods to be omitted from the child's diet and c. The food or choice of foods that may be substituted. d. Time frame of meal modification (if applicable).

Until complete information is received from your office, the student's special diet cannot be implemented. Your timely assistance is appreciated. It is extremely important for the parent/guardian to sign the Medical Statement. If the student's school needs to clarify the diet prescription, the physician or medical authority can provide further information ONLY if the parent/guardian has signed the Medical Statement. Please retain a copy of the completed Medical Statement with your medical records for the student.

If you have questions or need assistance, please call me at 843-695-4920 ext. 60814.

Sincerely,

Shennie Quintanilla, MS, RD, LDN
