

# SIRES ELEMENTARY SCHOOL BULLYING LESSON REPORT

1. Date of Lessons: September 2017
2. Grade Levels: CD/K-5<sup>th</sup> Grade
3. Total time of each lesson: 30-45 minutes
5. Remarks: Teachers and students know and understand the definition of bullying and the steps to take if they feel bullied or see it happen.
6. Concerns: None

Overall, there was **35% growth** in students' knowledge about bullying.

\* In order to **get a higher percentage next year**, I will spend less time covering the basics in the upper grades (since they should have the foundation by then) and **more time covering the different kinds of bullying**. Many of our 5<sup>th</sup> graders got confused on the difference between social and verbal bullying on assessments.

\***To further understanding this year**: posters in each classroom, news show segment, and brochure to parents.
