

Unit Project

Become a Travel Expert

You and a classmate have a budget of **\$8,000** to spend on a vacation for both of you and 3 of your friends or family members (**5 people total**). You cannot spend over your budget! You must stay for at least 3 days. Together, you will create a PowerPoint Presentation including a minimum of 7 slides- slide 8 is extra credit. All slides must be organized, easy to read (consider your font and background colors), and be in the order given below. Your presentation must be shared with each member of your group, and myself.

Slides	What you need to do	Point Value
Slide 1	Include your name(s), class period, name of travel destination, and an image from your destination.	3 PTS
Slide 2	Provide the following: 1. your vacation destination, in the United States (this must be a location in which you take an airplane) 2. in which climate zone your destination is located (Geo component) 3. what month you will be traveling and why you chose this month	#1-3: 1 pt each TOTAL: 3 PTS
Slide 3	Include an image of the airline you will be flying. You must include the following information: 1. The airline you will be flying. 2. The departure and arrival times (round trip) 3. Is the flight nonstop? If not, where does it stop? 4. The airports you will be departing and arriving. 5. The cost for you and your 3 friends/family to fly round trip. *Make sure you include the cost of tax.	Image: 3 pts #1-5: 5 pts each TOTAL: 28 PTS
Slide 4	Research a hotel/air bnb within your destination area. Include an image of the hotel with the following information: 1. The cost per night during your travel time 2. An equation representing the c cost for n nights. 3. The total cost for your entire stay (including fees and taxes) 4. Why you chose this hotel/ air bnb	Image: 3 pts #1-4: 5 pts each TOTAL: 23 PTS
Slide 5	Find a unique within your destination (not a chain restaurant). You will need to calculate a total bill, so be sure there is a menu available on the website, with prices for items. Obviously, you will eat multiple meals on this vacation but to save time and space please only include one meal. Include the link to the restaurant's website with the following information:	

	<ol style="list-style-type: none"> 1. Include what EACH person will be eating, and the price. 2. Research and post the state's restaurant tax rate. 3. Calculate and post the amount of tax on your meal. 4. Calculate and post the amount of a 15% tip. *Remember that tip is only taken on the subtotal, not including the tax. 5. Provide the total cost. 	<p>Link: 4 pts</p> <p>#1-4: 5 pts each</p> <p>TOTAL: 24 PTS</p>
Slide 6	<p>Calculate and post the total cost of your plane tickets, hotel stay, and restaurant visit.</p> <p>Remember your budget was \$8000.</p> <p>If you have leftover money, is there anything you would like to do or see while at your destination? If so, post what they are and the cost (if there is one).</p>	<p>Correct calculations: 5 pts</p> <p>Stayed within budget: 5 pts</p> <p>TOTAL: 10 PTS</p>
Slide 7	<p>Suppose you are interested in traveling internationally for your next trip. When traveling out of the country you will need to know the current exchange rates.</p> <p>Research 3 different countries, each with a different exchange rate, from 3 different climate zones. Post your answers on your 7th slide in your presentation.</p> <ol style="list-style-type: none"> 1. Record the exchange rate for each country. 2. How much is \$100 worth in each country? 3. What climate zone is your country in? (Geo component) 	<p>#1: 5 points per country</p> <p>#2: 5 points per country</p> <p>TOTAL: 30 PTS</p>
Slide 8	<p>Geography component:</p> <ol style="list-style-type: none"> 1. Post images of clothing you would need to pack for your trip. Include captions with each image explaining why this piece is suitable for you climate. 2. Describe the climate in your region <ol style="list-style-type: none"> a. Keep in mind that some climates get colder at night even though it is hot during the day. b. Also, some areas receive more precipitation and have more drastic seasonal changes than others which may influence your clothing choice 	<p>EXTRA CREDIT</p>
Slides are neat, organized, and easy to read. Extra effort is obvious.		out of 10
