

7th grade ACE – MATH & ELA

Students will need to work on Edmentum for at least 20-25 minutes each day. Students can rotate between their MATH and ELA content. Please make sure that students are taking the assessments that go along with each topic. Students should know how to navigate through Edmentum since we use this program daily. Students can login Edmentum through clever using their district email and password. ACE teachers are able to check the amount of time students are active and on task. If you would like to know, how often your child is active and on task feel free to check in with your child's teacher via email. If your student does not have access to Edmentum (does not work on cell phones) please let us know.

We miss all of you! Hope you are staying safe and healthy ☺

Please feel free to email your teacher for clarifications.

Ms. Foley - lfoley@dorchester2.k12.sc.us

Mr. Krakower – akrakower@dorchester2.k12.sc.us

Ms. Kammerer - tkammerer@dorchester2.k12.sc.us
